

HAMMOND PUBLIC LIBRARY
Hammond, Indiana

BP-4105 INTERNSHIP POLICY

A limited number of academic internships are available to students majoring in library science, computer science, and related fields.

The Library will accept interns only to the extent and at the times that it can provide successful management and oversight and for areas of service that fall within the mission and goals of the Library.

Interns can be very valuable to the Library, bringing added talent, different perspectives, and fresh approaches to an activity or service. The Library must also offer a genuine educational opportunity for “on-the-job training” in particular services and/or special projects.
